We use person centred approaches and work with service users to meet their individual needs and promote independence and wellbeing in areas associated with:

- Daily living skills
- Physical, emotional and mental health awareness
- Occupation and activities
- Social skills

We place great emphasis on **service user empowerment and participation through development of social skills**, community access and supporting individual's tastes and preferences. Prior to moving into Supported living each individual will have undergone extensive assessment, including risk assessment, to identify their needs and to provide the correct level of support to meet those needs in addition to maintaining their safety.
